FOR IMMEDIATE RELEASE

VT Hackney Releases Sprinter Van Shelving Packages *Available on Select Sprinter Models*

Washington, NC, November 29, 2016 – Hackney’s aluminum shelving line has seen great success in box style and Ford Transit vans, so Hackney has extended its reach into select Sprinter van models. Hackney’s aluminum shelving lines target the plumbing, HVAC, and electrical contractor markets. Standard kits are available for quick delivery and installation, but modifications can be requested to better accommodate an operator’s business.

Hackney’s aluminum shelving is lightweight with adjustable shelves designed to hold Hackney’s storage trays or tools. Driver side and passenger side kits can be purchased separately or as one package with top shelf storage for ladders and pipe. Introductory packages provide open areas for bulky items, such as hot water heaters.

Hackney shelving can be purchased directly from Hackney or through your local Sprinter dealer. Hackney will offer flexible installation options, including detailed instructions for end user installation or Hackney factory installation. For Sprinter factory ordered vans, Hackney will also offer a “ship thru” option allowing customers to have their shelving installed as soon as the van rolls off the line. This option reduces both customer lead time and freight charges.

For sales information or to inquire about van shelving options, please contact your Hackney Sales Representative or visit www.vthackneyparts.com.
