

SIDE-LOAD BODIES

Keeping your driver
safe, product secure,
and your deliveries on
time is our priority.

MORE THAN JUST A BODY, A SOLUTION

At Hackney, your concerns are our concerns. Faced with the decision of total cost of delivery, company executives reach out to us to design a solution. Blending together functionality, structural integrity, and superior longevity; our side-load bodies are a testament to the expertise of the Hackney engineering team. Our simple, yet durable, designs keep your bodies in working condition for decades.

STANDARD FEATURES

- All-aluminum structure is lightweight, corrosion free, and environmentally friendly
